**Petrolinvest** engaged primarily in wholesale of liquefied petroleum gas (LPG) and crude oil until 2005. In 2005, the Management Board decided to adopt a new strategy which involved a change to the Group's business profile, moving away from trading in fuels, mainly LPG, towards exploration and production of crude oil and gas. At the beginning of 2006, we became involved in organising financial resources that were going to enable us to build a exploration and production investment portfolio. In December 2006, Petrolinvest was transformed into a joint-stock company. Our strategic objective since 2006 has been to become a leader company in Central Europe that invests in the assets of companies involved in exploration and production of crude oil and gas in countries enjoying a high petroleum potential such as the Republic of Kazakhstan and to continue to expand LPG trading activities. The key factor that provides us with a strong competitive advantage in Shale Gas, Wind Farms, Gas trade - trading is our sea trans-shipment terminal in Gdynia.

**Pracownia Gier Szkoleniowych** - is one of the first companies on the Polish market specialized in designing and running management games and business simulations in trainings. Its games are used to support change and team-building processes, they help in improving communication and coordination in business and public administration.

**ARBOinteractive** provides internet and new media marketing solutions. The group works on different online marketing tools, like display advertising, behavioural targeting, video online, engagement ads and adver gaming. Competences in different marketing areas enables ARBOinteractive to offer internet advertising campaigns comprehensive service - mediaplanning, providing emission technology, creating ad forms and reporting the results of campaigns to the client.

**ALVO Sp. z o.o. sp.k.** - Medical sector, consulting, designing, manufacturing and installing of modular operating theatres with equipment. Biggest Polish manufacturer of operating tables, operating lights, furniture and equipment for operating rooms ALVO medical.

**Empathy** is the first Internet Software House on the Polish market. We have designed tools enabling companies to use the power of the Internet and advanced technologies till as far as the year 2000. These include, among others, sales platforms including tens of thousands of products as well as system for the financial industry.

**BEZPOL** Company was established in 1992 in Myszków, Poland and since that time we proudly present our products to the customers of power energy industry of many countries. We are manufacturer of power energy equipment and we are successfully cooperating with companies e.g. from Germany, Russia, Latvia, Ukraine, Estonia and others.
